

Product Name: **SALEMA CP**
Printed : 11.03.2010
Revision : 11.03.2010
Revision No : 03

SALEMA CP, developed to be used in the production of environmentally compliant prefabricated concrete mold release agent, formulated fully with aliphatic and natural esters and performance additives. Easily separates concrete from molds. Prevents unwanted formation of air bubbles in the concrete structure.

SALEMA CL, can be easily applied to steel bars, plywood and wood molds

ADVANTAGES

- Does not leave stain on concrete surface and does not penetrate into the concrete
- On surface applications does not require re-cleaning costs and labor costs.
- By less product, much higher surface areas can be lubricated
- Provides mold protection and longer mold life
- Prevents oxidation of mold connections
- It is bio degradable, non toxic product

TECHNICAL PROPERTIES

Properties	Test Methods	Typical Values
Density @15 °C, Kg/l	ASTM D 4052	0.859
Kinematic Viscosity @ 40 °C, cSt	ASTM D 445	11.8
Flash Point (PM), °C	ASTM D 93	134
Refractive Index	ASTM D 1747	1.467
